

# When you were 19, who would you call if ...

your car  
broke down?

your house  
flooded?

your school  
supplies were  
too expensive?

Foster & homeless youth often lack a network of people to call when they hit a bump in the road of life. The Burton Critical Needs & Opportunity Fund is designed to provide that safety net. 100% of this fund goes directly into the hands of these young people when they need it most. By helping us reach our goal of \$250,000 this year, you can directly impact the lives of 1,600 young people with things like school supplies, transportation, medical bills and groceries. This is your opportunity to do a little more good in 2023!
