

When you were 19, who would you call if ...

your car
broke down?

your house
flooded?

your school
supplies were
too expensive?

Foster & homeless youth often lack a network of people to call when they hit a bump in the road. The Burton Critical Needs & Opportunity Fund is designed to provide that safety net. 100% of this fund goes into the hands of these young people when they need it most. Each year, this program directly impacts the lives of 1,600 young people by helping them pay for school supplies, transportation, medical bills and groceries. This is your opportunity to do a little more good in 2024!
